

PRODUCT CATALOGUE

COMPANY PROFILE:

- **Our journey began in 2014 under the banner of Rajsons Pharma Pvt. Ltd, marking our entry into the healthcare distribution sector. We subsequently transitioned to Sapna Pharmaceuticals Pvt. Ltd, and later operated as V4 Medi 360, steadily expanding our reach and capabilities across the medical supply chain.**
- **In 2020, to sharpen our focus on surgical distribution, we established D Sparsh as a dedicated proprietorship firm. D Sparsh represents the culmination of this legacy, bringing together a team with over 25+ years of expertise in the surgical market.**
- **Today, D Sparsh is committed to delivering high-quality surgical products and solutions with reliability, transparency, and a deep understanding of the industry's evolving needs.**
- **Business on an area of approx. 35000 sq. ft with the necessary warehousing, dispatching, packing space, etc**
- **Company offers low cost, quick turnaround, high quality supply and better health care for all people.**
- **One of the fast-growing refined surgical distributors in India.**

KITS PROS

The major advantage to the hospital is that it **reduces inventory**. For Example when you require few numbers of BD venflon, you will need to place an order for 1 box (50 PCs) stock. It will increase your inventory.

But when you purchase 10 Kits you invest only 10 PCs of BD venflon.

Before customized surgical kits were introduced, a pharmacy would store up a huge supply of surgical equipment which would cost more. With surgical kits being delivered just-in-time, the pharmacy can use the storage space for other things and release most of the stock value for other purposes.

Another prime advantage, It saves time of Pharmacist, OT – in charge and even waiting time of patients at pharmacy. Makes ease ordering.

Since one Kit contains all the necessary products, the hospital will save the time and money of contacting many suppliers

Also you can customize your kits, Based on your requirement, surgical procedure. We can customize kits based on your need.

If any products in kit left out, you can use it for other patients. You can use for other patients and also return monthly basis.

- It reduces man power in pharmacy.
- You will get high quality products at reasonable cost.
- Better price.
- Kits are well packed.
- All in one place (You can avoid multiple vendors).
- You can avoid, stocks getting expire on your store.

If you Purchase 3 Boxes suture, value = Rs 16274, But if you buy 1 kit it costs Rs 1356 Only (12:1) (lower inventory)
